March 2020

## UPCOMING SERVICES

**March 1st      Wisdom of All Ages**

**Rev. Danielle Webber**

**Worship Associate: Keith Germaine**

**Welcoming Board Member: Wayne Broughton**

We all have wisdom to share. As we begin this month's theme of wisdom let us attempt to glean from those in our community, of young and of old what wisdoms they have to offer, and how sharing can bring together a more wholesome understanding of truth.

**Community Lunch will follow this Service. Please bring something to share if possible and join us for great food and conversation. All Welcome!**

**March 8th      Wisdom of the World's Religions    Rev. Danielle Webber**

**Worship Associate: Linda Guebert**

**Welcoming Board Member: Sheldon Reddekopp**

Although Unitarian Universalists regularly refer to the 7 Principles to which all communities covenant to Affirm and Promote, did you know that we are a living Tradition that draw from 6 different Sources? This Sunday we will be focusing on our 3rd Source: Wisdom from the World's Religion which inspire us in our ethical and spiritual life. Please join us as we explore world traditions from Ancient Greece, modern day India and Early Judaism.

**March 15th      The Seven Principles in Poetry and Song**

**Worship Associates: Kim Dawson & Linda Guebert**

**Welcoming Board Member: Lindsay Atkinson-Smith**

Unitarian Universalists do not have a prescribed doctrine or creed, but we do share some guiding principles. In this service we reaffirm our commitment to these principles and explore and extend our understanding of them through specially selected music and poetry.

**March 22nd      The Wisdom of A Rebirth**

**Rev. Danielle Webber**

**Worship Associate: Robert Sebo**

**Welcoming Board Member: Ali McMillian**

Spring and Spring Equinox are often associated with the concept of rebirth, and life coming back into our world. We will be exploring the wisdom that we find in the earth, in the rebirth of this time, while reengaging in a practice of welcoming

new members to our community. Mixing renaissance with new life we will also be creating a new communion ceremony together this Sunday!

**March 29th      Why Go to Church?**

**Worship Associate Linda Guebert & Congregational Panel**

**Welcoming Board Member: Linda Easton**

What brings people to church? Couldn't they just stay home and worship on their own? In this service several members of our Kelowna Unitarian community will reflect on what they personally gain from attending church and the impact it has on their lives.

**Soul Matters: What Does It Mean To Be**

**A People of Wisdom?**

When the topic of wisdom comes up, so do the usual images. Walls and walls filled with dusty old books. Elders with the wisdom of many years carved into the wrinkles on their faces. Diplomas framed and

filling one's office wall. Endless letters placed in front and behind your name (Dr., PhD., LCSW, JD, Rev., etc.)

The message: wisdom is about accumulation. If you want to be wise, you need to pile it on. More knowledge. More experience. More books to read. More gurus to follow. More degrees to get.

But then words like these sneak into the conversation:

Knowledge is a process of piling up facts; wisdom lies in their simplification.

- Martin H. Fischer

There is no need to "acquire" the knowledge of God. There is only the dropping of the illusion and forgetfulness.

- Omid Safi

Besides the noble art of getting things done, there is the noble art of leaving things undone. The wisdom of life consists in the elimination of non-essentials.

- Lin Yutang

It's a reminder that the math of wisdom is often the opposite of what we think. It's more a game of subtraction than addition. Often, accumulation of knowledge doesn't get us closer to wisdom; it's just in the way. There's a sorting, simplifying

and stripping away that needs to occur. It's about unknowing as much as knowing.

Just think about how deeply we get tangled up in those cultural messages about money and success. Or the way degrees, IQs tests and SAT numbers get mixed up with status rather than the pursuit of truth. Or the way political parties, religions and even science claim to have all the answers. Maybe this is why the Sufi poet Hafiz wrote:

The Beloved sometimes wants  
To do us a great favor:  
Hold us upside down  
And shake all the nonsense out.

And with all the nonsense shaken out and stripped away, maybe what we notice most is not so much the pearls of wisdom themselves, but the sources of wisdom we've forgotten.

When reason and logic hog the spotlight, the wisdom of the body rarely enters the room. When week-long retreats with the newest guru define the path to wisdom, we stop asking what our failures and mistakes are trying to teach us. When "experts" sit in the center, the wisdom of those on the margins is lost.

So many untapped sources.

So much wisdom waiting to be known.

**Makes one think that maybe the wisest question of all this month is:  
“Where have I not looked before?”**

## **BOARD MEETING SUMMARY FOR FEBRUARY 2020**

The Board & Rev. Danielle met on February 10th. The property taxes for the church property & the Cawston house in particular, have increased substantially due to the development happening on Bertram & the valley in general. Unfortunately, a house used as a parsonage is not exempt from property tax, the same way as is a church building. The parsonage is experiencing numerous "leaks" for which urgent arrangements for repairs are being made. Linda Guebert has agreed to be chair for the Worship Committee. Welcome new member Megan Atkinson-Smith.

Our next board meeting will be March 2 at 7:00. Welcoming board members for March: March 1, Wayne; March 8, Sheldon; March 15, 22, & 29 will be agreed among Linda & the new board members at the next meeting. The board welcomes new members Lindsay Atkinson-Smith as Vice President, & Ali McMillan as Member at Large!

### **Poetry Corner**

Circuitry of Laughter

The element of surprise  
sets off a circuitry of mirth.  
A punch line or a pun  
stimulates guffaws, chuckles, giggles,  
contagious acts from the belly.

Emotions, ideas, sensation flow,  
a tickle sparks  
brain's prefrontal cortex.  
Currents of jubilation light the route  
to a network of smiling muscles  
that leaves no choice  
but to laugh along the way.
